

Who are we?

Established in 1983, privately-held Pacific Market International (PMI) designs, manufactures and markets innovative food and beverage solutions designed for busy lifestyles. Our brands in the marketplace are Stanley, Aladdin, Migo, and Slant Collections. PMI is headquartered in Downtown Seattle. We also have offices around the world in Shanghai & Shenzhen, China; Rio de Janeiro & Manaus, Brazil; Manila, Philippines; Amsterdam, The Netherlands; and San Francisco & Bentonville, USA. More information can be found at www.pmi-worldwide.com. Thanks for checking out our full-time Sr. Packaging Engineer role.

Position Overview – Seattle Office

As the Sr. Packaging Engineer you will provide key development and production support to internal and external customers by developing packaging used for consumer products, point of sales displays, club pallet programs and sales assets. You will support PMI's commitment to provide innovative products and solutions that meet and exceed the needs of customers and consumers, while operating in a manner that is environmentally and socially responsible, and economically sound.

You'll:

- Develop innovative structural designs that are appealing to the consumer while also cost effective, easy to set-up, and structurally sound within vendor compliancy.
- Be responsible for die-line creation in CAD, assembly specifications, prototyping, brief release and primary and secondary packaging development for retail.
- Be responsible for design of materials that are on-strategy per direction from Product Managers and other key stakeholders.
- Work cross functionally with teams including Quality, Product Managers, Sales, Production, Operations and Logistics.
- Recommend needed improvements or enhancements to structural design products in order to stay current with customers and market expectations.
- Evaluate, comment and reject/approve vendor samples.
- Utilize and maintain PMI's prototyping equipment and vendors to create prototypes for development and sales purposes.

As the Sr. Packaging Engineer we ask that you bring:

- Proficiency in Artios, Solid works CAD, Adobe Creative Suite, Microsoft Office. Familiarity with TOPS or CAPE. Expert skills in Adobe Illustrator preferred.
- An understanding of properties, terminology and specifications surrounding corrugate, paperboard and sheet plastics, as well as packaging printing/manufacturing/assembly process.
- A Bachelor's degree in a packaging field or technical degree with strong work experience and history as a Structural Packaging Engineer.
- Experience in operating sample table cutting devices (i.e Kongsberg table).
- Knowledge of vendor scorecards, requirements, and Club Programs (Sam's, WalMart, Costco).

Comprehensive compensation and benefits package including 401(k) plan.

Help us build our success story today. Please apply by contacting PMI at: resumes@frontiertalent.com
